01 Ron is the latest radiator from **Eskimo** and is available in highly polished aluminium and or with a gold finished produced by anodising the metal tube themselves, rather than a coating www.eskimodesign.co.uk

02 Crocus patterns adorn this ornate cast iron radiator from the **Old Radiator Company**. It is painted in silver with nickel thermostatic valve www.theoldradiatorcompany.co.uk

03 Module has been added to **Aestus's** Hotech collection. The super sleek design is in an 8mm sheet of brushed aluminium, also available in gold and copper leaf www.aestus-radiators.com

04 **Aeon's** classically inspired Grandeur also doubles as seating for the entrance hall or bathroom and is brushed stainless steel. www.aeon.uk.com

05 **J'N'J Bathrooms** have created Medusa from a large mesh of flamed copper or brass finish rails in 22 colours such as pearl grey as shown here www.jnjbathrooms.co.uk

06 The sharp angles and mirrored effect of chromed steel used on **Features Radiators's** XL, give s it both a art deco and contemporary feel www.featureradiators.co.uk
